### **Financial Freedom**

As a young man, Jim Sammons had one goal in life—to become financially independent by the age of 30. At 29, his financial world collapsed, and he experienced pressures so overwhelming that he could not work, eat, or sleep. It was then that he learned how to apply Biblical principles to his life, his family, and his business. After years of thrilling results, the Institute in Basic Life Principles presented the Financial Freedom Seminar with Jim relating what God's Word says about finances and giving practical direction to thousands who listened in rapt attention as he shared insights from his experiences. The seminar is now available via video. Topics covered include How to get out of debt, How to deal with compromises, How to make wise investments, How to build the spirit of a marriage, How to teach principles to children, How to work with people, and other skills that are helpful for becoming a successful person, marriage partner, parent, and financial steward.

A young father testified, "Because of these videos, I've been able to deal with problems I didn't know I had; as I have purposed to do things His way, God has blessed me abundantly! I have been prompted to spend much more time in prayer and Bible study. I've learned how to be a better husband, better father, and better Christian, as I purpose to live what I have learned. These videos are sure to shine some light on things you might be stumbling over and that need to be removed." Another father said, "If I had known these principles just a few years ago, I would have avoided the serious financial problems that I am now facing."

These Financial Freedom videos will be shown in our church at no cost on Wednesday evenings at 7:30 p.m. beginning August 3. I invite you to attend. To see what it is like, you can **view 10 video clips online** at: <http://store.iblp.org/products/DFFS/>
